

Best quality in China we promise!

YOLONG INDUSTRIAL CO., LTD

If you are looking for the manufacturer and the supplier of the world-class brewery equipment or the designs and solutions of the world's top brewery systems in China, here is the right place you are looking for.

We have been honored to work with the most respected nano, micro and craft breweries in the USA, Canada, Mexico and Australia. To the Pacific region, we also have cooperated with the famous local technical support companies, to provide the auto control systems, brewery solutions and complete brewing equipment.

Our strength is our intuitive design, automatic system design and bold innovation in stainless steel brewing tanks, which reflects our attitude and experience.

Especially what we are most proud of, is finishing every weld off with a hand polished bright finish which shows the craftsmanship of our brewing tanks.

We solemnly promise that honesty is the first priority. We must be the most honest and trustworthy Chinese in China. And we promise, our all brewery systems and brewing tanks are the best quality in China, and our service is also first-class in China.
